Introduction

Validate and reconcile your organization's Payroll results and support your Payroll processes with SpinifexIT's Payroll Control Center (PCC) Integrated Solution.

Ensure the integrity of your organization's payroll results with our pre-defined set of validation and reconciliation content that seamlessly integrates with the PCC solution.

What PCC helps you accomplish

With SpinifexIT's PCC Integrated Solution, many of the validation and reconciliation checks are pre-built and delivered via the Easy Reporter menu for quick deployment into the Payroll Control Center main menu.

CONTROL & CUSTOMISE

You can also modify the pre-delivered content or even create your own easily without the need for technical assistance or custom code.

FULL INTEGRATION

Link any existing Easy Reports or Easy Documents into the Payroll Control Center to further enrich your organization's payroll validation and reconciliation checks.

FASTER REPORTING

All exceptions come with the ability to report on the SAP Payroll Decluster Tables.

If you also have the SAP HANA database, the exception checks and reports deliver huge performance improvements.

IMPROVED VISIBILITY

Help explain exceptions with the Easy Reporter Web Reporting Menus that can be accessed within the Payroll Control Center.
